

JOEL MOSIO AUNDU

SOFTWARE ENGINEER | React, Typescript, NodeJS

Location: Cape Town, South Africa (Open to Global Remote | US/EU Time Zones)

Phone: +27 743 675 383

Email: joel960801@gmail.com

LinkedIn: [linkedin.com/in/joelaundu](https://www.linkedin.com/in/joelaundu)

GitHub: github.com/JoelAundu

TECHNICAL SUMMARY

Frontend Architecture: React, TypeScript, Next.js, Astro, GraphQL, TailwindCSS, WebSocket

Backend Engineering: Node.js, Express, PostgreSQL, Prisma, REST APIs, Microservices

Full Stack: JWT Authentication, WebSockets, Real-time Systems, File Processing, Testing

DevOps & Tools: Docker, CI/CD, Jest, Playwright, Git, AWS, Firebase, MongoDB, Performance Optimization

PROFESSIONAL EXPERIENCE

SOLINK | Software Engineer

October 2022 - Present | Cape Town, South Africa

Technical Leadership & Team Development

- Lead frontend development and mentor 2 junior developers, conducting code reviews and providing technical guidance to improve team output quality
- Establish frontend development standards, best practices, and CI/CD pipelines that reduce production bugs by 40%
- Drive technical decisions and architecture for client-facing applications serving 10,000+ daily users

Frontend Architecture & Engineering

- Architected and implemented white-label OMS UI system enabling 15+ enterprise clients to customize branding from single codebase, reducing development time by 60%
- Engineered real-time collaborative features using WebSocket integration, enabling live synchronization across 5,000+ concurrent users
- Built responsive UI component library with TypeScript and TailwindCSS, improving mobile engagement by 35% and accelerating feature development

Full Stack Development & Backend Integration

- Developed secure file upload system with image processing and 50MB/user storage quotas
- Collaborated with backend teams on GraphQL schemas, PostgreSQL optimization, and microservice architecture

Aerobotics | Data Specialist → Frontend Developer

February 2019 - September 2022 | Cape Town, South Africa

- Developed and maintained React Native mobile application serving agricultural analytics to 50,000+ farmers
- Implemented data visualization features for satellite imagery and farm mapping, improving user engagement by 45%
- Processed and quality-checked geospatial data pipelines handling 2TB+ of satellite imagery monthly
- Collaborated with product team to design and implement new features based on user research and analytics

KEY PROJECTS

Real-Time Task Management Platform | Full Stack Architect

- Architected complete fullstack application with real-time collaboration, file uploads, and advanced user management
- Technologies: React, TypeScript, Node.js, PostgreSQL, WebSockets, Docker, Jest
- Features: JWT authentication, live synchronization, drag-drop file uploads, image processing, responsive design

Enterprise Order Management System | Frontend Lead

- Led development of white-label OMS used by multiple enterprise clients with custom branding
- Technologies: React, GraphQL, TypeScript, TailwindCSS, Firebase
- Results: 60% faster client onboarding, 40% reduction in UI-related support tickets

Agricultural Analytics Mobile App | React Native Developer

- Maintained and enhanced a hybrid mobile app for farm management and satellite data visualization
- Technologies: React Native, JavaScript, Firebase, Mapbox
- Impact: Served 50,000+ active users with real-time farm monitoring capabilities

EDUCATION & CERTIFICATIONS

Full Stack Engineering Specialization | HyperionDev

Advanced MERN Stack, Microservices, Cloud Architecture

Computer Systems Engineering | Cape Peninsula University of Technology

Systems Design, Networking, Hardware Architecture, Software Engineering Principles

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, GraphQL, HTML5, CSS

Frameworks: React, Next.js, Astro, Node.js, Express, React Native, Jest

Databases: PostgreSQL, MongoDB, Prisma, Database Design & Optimization

Tools & Platforms: Docker, Git, AWS, Firebase, TailwindCSS, WebSockets, JWT, CI/CD

Methodologies: Agile, Scrum, Microservices, Test-Driven Development, System Design
